

## Turn one phone photo into a complete marketing campaign.

Snap a vehicle with your phone and get 8 showroom-quality angles, social posts, email headers, and VDP-ready creative — branded to your store, in about 10 minutes. No photographer. No studio. No agency retainer.

### THE PROBLEM

Dealers spend 2-4 hours per vehicle on photos and marketing across 5+ disconnected tools. By the time the campaign launches, the unit has aged another 3 days on the lot.

### HOW IT WORKS

#### 1 Capture

Scan a VIN or snap one photo with any phone. We auto-fill the vehicle details.

#### 2 Generate

Pick a channel and style. Get 8 angles + multi-channel creative in one batch.

#### 3 Publish

Push to Instagram, Facebook, email, your website, and print — every lead tracked.

### WHAT'S INCLUDED

- 8 photoreal angles from one photo
- 11 automotive content types
- Full Design Studio + templates
- Vehicle descriptions & captions
- Mobile VIN scanner
